

## Inicializar el formulario para editar

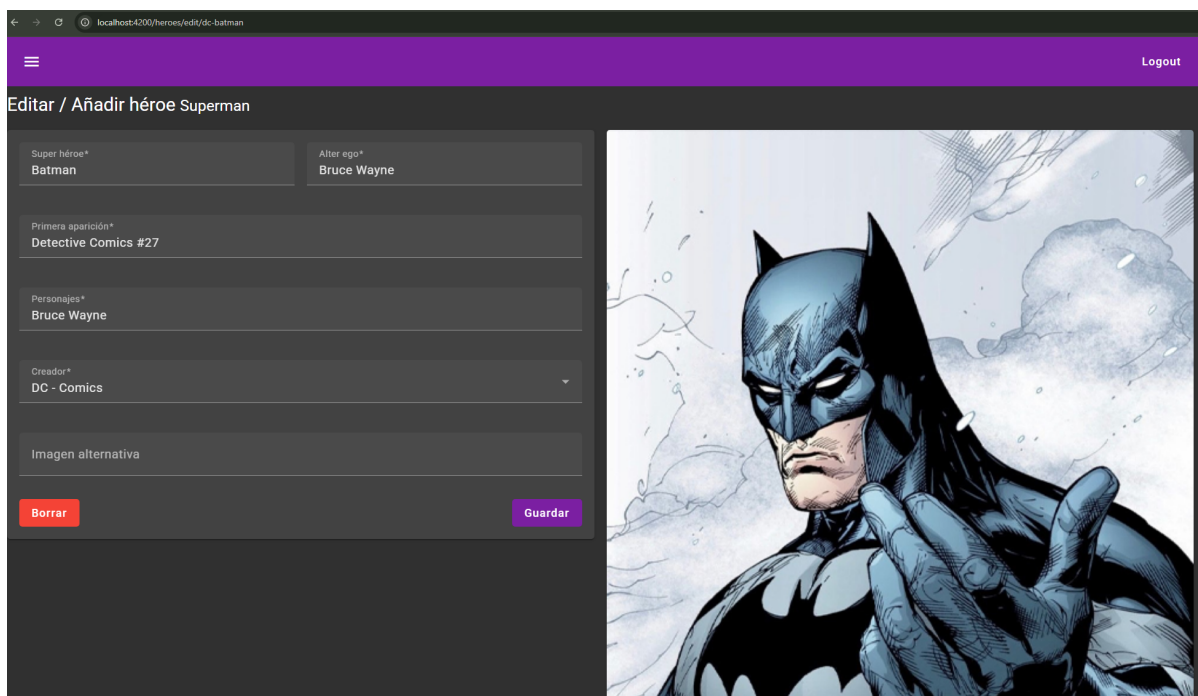

### Código modificado

new-page.component.ts

```
ngOnInit(): void {  
  if (!this.router.url.includes('edit')) return;  
  
  const route = this.router.url.split('/'); // Tomo la ruta y la divido en secciones  
  const id = route[route.length-1]; // Tomo la ultima sección, la id del superheroe  
  
  this.heroesService.getHeroById(id) // Cojo el heroe  
    .subscribe(hero => {  
      if (!hero) { // Si pasa esto significa que el heroe no ha cargado correctamente  
        this.router.navigate(['/']); // Volvemos al inicio  
        return;  
      }  
  
      this.heroForm.reset(hero); // Hago el reset  
    });  
}
```

### Resultado

Carga todos los datos correctamente.

The screenshot shows a web application interface for editing a superhero. The browser address bar shows 'localhost:4200/heroes/edit/dc-batman'. The page has a purple header with a 'Logout' link. The main content area is titled 'Editar / Añadir héroe Superman'. On the left, there is a form with the following fields: 'Super héroe\*' with the value 'Batman', 'Alter ego\*' with the value 'Bruce Wayne', 'Primera aparición\*' with the value 'Detective Comics #27', 'Personajes\*' with the value 'Bruce Wayne', 'Creador\*' with a dropdown menu showing 'DC - Comics', and 'Imagen alternativa'. At the bottom of the form are two buttons: 'Borrar' (red) and 'Guardar' (purple). On the right side of the form is a large image of Batman in his suit, pointing forward.

En modo inserción, no carga nada.
